Career Cluster Implementation Committee Outcomes
Driven by Perkins accountability requirements

Sequence of Standard Based Courses

Course Syllabi

Instructional Units

07-08 Pilot Sequence of Courses
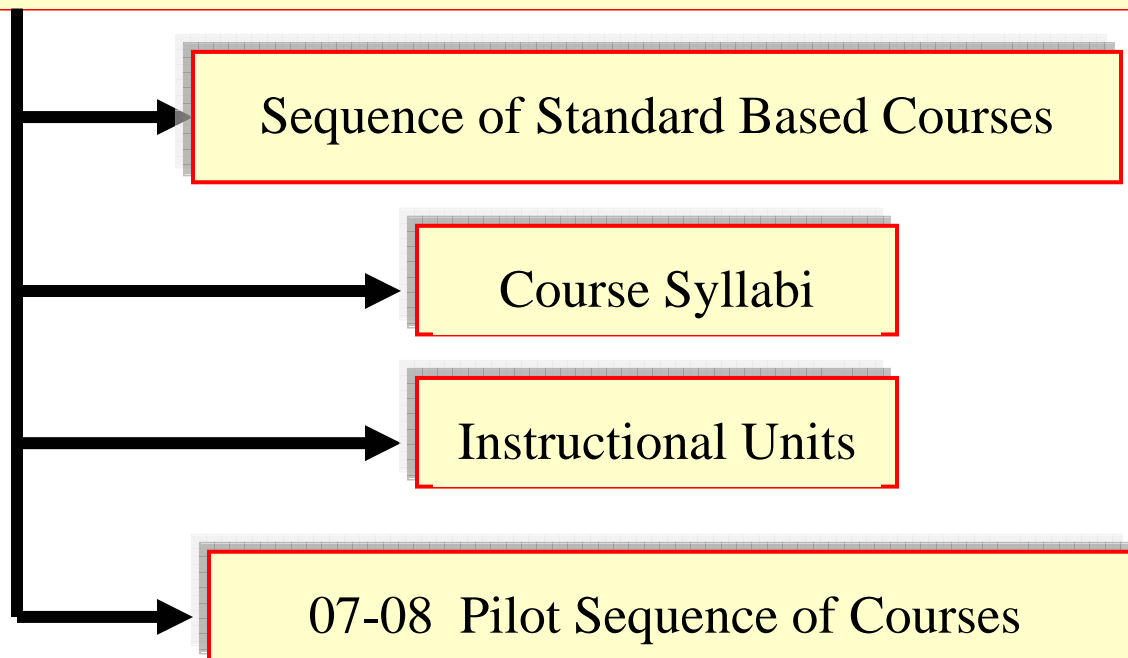

Steps to Implementation Committee Outcomes

1. Train Committee members on Career Clusters
2. Crosswalk pathway knowledge and skills to technical standards
3. Based on crosswalks, evaluate current course offerings and course syllabi
4. Update current courses to meet pathway knowledge and skills
5. Create new standard based courses to meet pathway knowledge and skills
6. Generate a scope and sequence of courses
   a. Include Foundational CTE courses
   b. Include Foundational Cluster CTE course
   c. Include Pathway Specific CTE courses
   d. Include General Education Courses related to Cluster
7. Develop a standards based course syllabus for each course in the Pathway
   a. Each course will have a common course title, assignment code, and common core standards
   b. Include course description, technical standards, pathway skills and knowledge, academic standards, major course projects
8. Develop a list of resources for each course
9. Develop instructional units for each course using Understanding by Design
10. Crosswalk technical standards to academic standards
